Dear Mummy Cobbs,

LETTER OF APPRECIATION AND GRATITUDE

We write to express our happiness and joy for the educational materials donated to the school. On the receipt of the items the students were immediately assembled and distributed to them fairly on the 18th September 2006.

We are equally thankful for your cash donation of one hundred USA Dollars (\$100). We have decided to use that money as a STARTER for the construction of the school's permanent buildings. It will be used to procure about 15 bags of cement for the molding of blocks.

Pictures had been taken with your camera to enable you see the joyous and happy mood in which the students were when the goods were distributed to them.

We always remember you in our prayers and shall continue to do for God to give you long-life, good health and prosperity to enable you support the school for the benefit of the children and the entire staff.

May God richly bless you.

Thanks, with kind regards.

Yours sincerely,
